A Review Of Financial Accounting

A financial statement review is a service under which the accountant obtains limited assurance that there are no material modifications that need to be made to an entity's financial statements for them to be in conformity with the applicable financial reporting framework (such as GAAP or IFRS).

Financial statement review — AccountingTools

The objective of a financial "review" conducted by an independent auditor is to examine the nonprofit's financial statements and determine whether the financial statements are consistent with generally accepted accounting principles. A review shares the goals of an audit, however, a review is not conducted with the same level of investigation or analysis as an independent audit.
