How To Make A Forest

Obviously, you can't literally grow a century-old forest in just a decade, but by mimicking nature's forest-building process, it's possible to kickstart your own mini-forest.

Grow a 100-Year-Old Forest in Your Backyard in Just 10 Years

Tall, canopy trees grow inward from the edge. Correspondingly, smaller trees peek out from underneath the tall trees to catch the sun's rays. Shrubs step farther out into the sunshine, along with herbs, flowers, and ground covers blanketing the sunniest edge. A typical forest edge can look a little busy.

Create a Permaculture Food Forest | Tenth Acre Farm

This was done to create a well for piling up an extra-thick load of gravel. The extra gravel made the bridge more solid and also filled hollows in some tree roots that crossed the path at that spot. Over well-defined rills, or in places where the sucking mud was only a few feet across, I constructed a series of small footbridges.

How to Build a Trail - Backwoods Home Magazine
