It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

V8 Engine In Inventor Autodesk

doesn't seem to be constrained at all, I was hoping for a functional model. maybe it was lost since I am using inventor 2016. As a lifelong gear-head, I've seen many an engine. Even so, this has to be the most aesthetically pleasing design I know of, real or modeled.
