Building - Simple English Wikipedia, the free encyclopedia

A house is a building that is made for people to live in. It is a "permanent" building that is meant to stay standing. It is not easily packed up and carried away like a tent, or moved like a caravan. If people live in the same house for more than a short stay, then they call it their "home". Being without a home is called homelessness. Houses come in many different shapes and sizes. They may be as small as just one room, or they may have hundreds of rooms. They also are made many different shap

First, identify the building you want to climb. Be sure that it has a safe, sturdy structure, such as stone. Understand that you may need to find a different one if it appears unsteady or dangerous at all. Check to see if people are around, as they may discourage you from climbing or call the police.
